Infobar Messages

Infobar messages are similar to popup messages; however, this type of message persists as a long bar spanning across the width of the page, either at the top or the bottom of a page. Infobars work well for reminders, such as free shipping or an upcoming sale.

Get Started

1. If you haven't already, open any page of your website, click the *Evergage* logo to the right of the address bar in Chrome, and click the Visual Editor slider to enable it

   > If you do not see the Evergage logo, you need to install the Evergage Visual Editor

2. Create or Edit a campaign
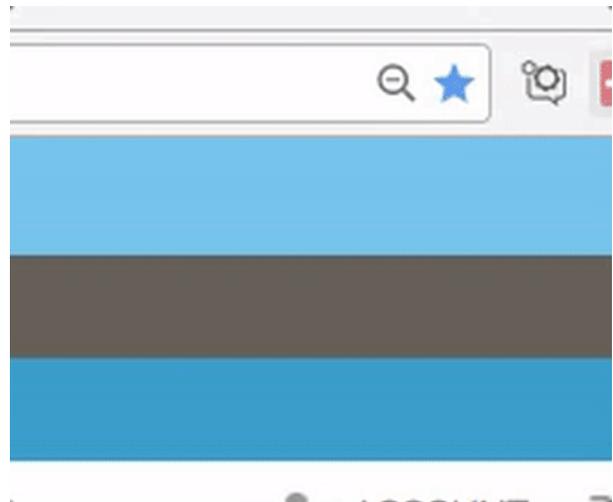

Create a Message

An Infobar is similar to a popup; however, this type of message persists as a long bar spanning across the width of the page, either at the top or the bottom of a page.

1. Click [+ Message] to create a new message

2. Click ⚙ to access *Message Settings* where you can adjust the message type, appearance and position, select a template appearance, set rules, options, and/or promoted content

   > Message format is not controlled in *Message Settings*
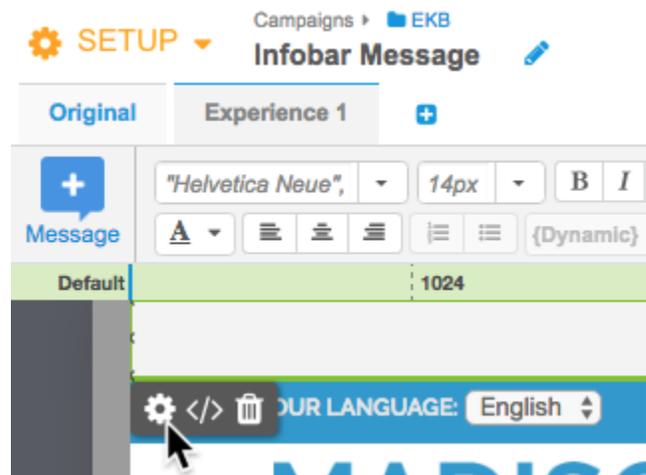

Message Settings

This article details information about *Infobar*-specific *Message Settings* on the *Type* tab only. For more information please see *Adjust Message Settings* and *Add Rules for Campaigns, Experiences, and Messages* .

Type Settings

1. *Message Type* is pre-selected as Popup
2. Click the drop-down to change the message type to Infobar
3. Select the **Position**
4. If you have multiple Evergage messages that may come up simultaneously, select **Stack** or **Rotate** from the drop down
5. Select **Invisible Message** if needed

> Invisible messages are primarily used to modify the CSS on your site so you can monitor the effect of the changes. For example, you have a new font or style you want to use and would like to see what the response is.

Message Settings

Message type Popup ▼

Position

☐ Modal ("lightbox")

☐ Non-Blocking

When hovering over a non-blocking message, the page content beneath it can be accessed.

If other matching Evergage messages share the same CSS selector, stack ▼ this message.

☐ Invisible Message

OK   CANCEL

Save Your Changes

1. When you have finished updating *Message Settings*, click **OK**
2. Click **SAVE** or **SAVE & CLOSE** at the top right of the campaign window to save your campaign changes
