

# Infobar Messages

Infobar messages are similar to popup messages; however, this type of message persists as a long bar spanning across the width of the page, either at the top or the bottom of a page. Infobars work well for reminders, such as free shipping or an upcoming sale.

## This Article Explains

This article details how to create an *Infobar* message, adjust message settings on the Type tab, and save your message.

- [Save Your Changes](#)

## Get Started

1. If you haven't already, open any page of your website, click the

 *Evergage* logo to the right of the address bar in Chrome, and click the Visual Editor slider to enable it

If you do not see the Evergage logo, you need to [install all the Evergage Visual Editor](#)

2. [Create or Edit a campaign](#)

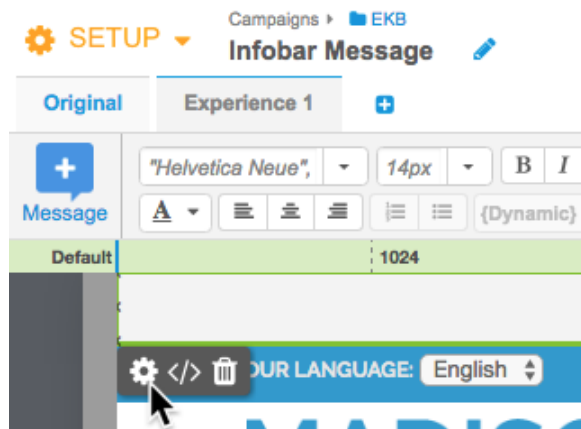

## Create a Message

An Infobar is similar to a popup; however, this type of message persists as a long bar spanning across the width of the page, either at the top or the bottom of a page.

1. Click  to create a new message
2. Click  to access *Message Settings* where you can adjust the message type, appearance and position, select a template appearance, set rules, options, and/or promoted content

Message format is not controlled in *Message Settings*

## Message Settings

This article details information about *Infobar*-specific *Message Settings* on the *Type* tab only. For more information please see [Adjust Message Settings](#) and [Add Rules for Campaigns, Experiences, and Messages](#).

### *Type Settings*

1. *Message Type* is pre-selected as Popup

2. Click the drop-down to change the message type to Infobar
3. Select the **Position**
4. If you have multiple Evergage messages that may come up simultaneously, select **Stack** or **Rotate** from the drop down
5. Select **Invisible Message** if needed

Invisible messages are primarily used to modify the CSS on your site so you can monitor the effect of the changes. For example, you have a new font or style you want to use and would like to see what the response is.

## Save Your Changes

1. When you have finished updating *Message Settings*, click **OK**
2. Click **SAVE** or **SAVE & CLOSE** at the top right of the campaign window to save your campaign changes
