

Interaction Studio IP Addresses

New Name: Marketing Cloud Personalization

Interaction Studio (formerly Evergage) is now known as Marketing Cloud Personalization. The new name reflects our mission and vision for innovation in Salesforce Marketing Cloud. We wish we could snap our fingers to update the name everywhere, but you can expect to see the previous name in various places until we replace it.

Interaction Studio uses several IP addresses that you can flag to allow for security reasons or exclude from data consumption tracking. For more information on allowlisting in Salesforce Marketing Cloud, please see [IP Addresses for Inclusion on Allowlists in Marketing Cloud](#).
